**DETAILED ACTION**

***Election/Restrictions***

1. Applicant's election without traverse of Group I, claims 1-6 in Paper No. 6 is acknowledged.
2. Claims 7-24 are withdrawn from consideration by the examiner as being drawn to inventions non-elected without traverse. The restriction requirement is made FINAL.

***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

***Claim Rejections - 35 USC § 103***

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.

Art Unit: 1751

2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

6. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

7. Claims 1, 2 and 6 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over DE 1,960,178 A1. The reference discloses compounds of the form shown at p. 2, Formula I, in which R<sup>1</sup> can be an alkyl group of 1-4 carbons and R<sup>2</sup> and R<sup>3</sup> can be hydrogen or alkyl groups of 1-2 carbons (p. 2, lines 48-49). Compounds in which R<sup>3</sup> is methyl and R<sup>2</sup> is hydrogen are not explicitly disclosed, however, the options are few enough that such would be "immediately envisaged" by the person of ordinary skill in the chemical arts. Alternatively, it would have been obvious at the time the invention was made to make such compounds, because the reference discloses that such are useful as oxidative couplers for hair dyes. The person of ordinary skill in the chemical art would recognize that the claimed compounds would have the same properties as those which are explicitly disclosed.

***Allowable Subject Matter***

8. Claims 3-5 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

9. The following is a statement of reasons for the indication of allowable subject matter: The closest prior art of record is the reference relied upon above. It does not disclose or make obvious compounds as recited in these claims.
